## Types of Policies:

1. TRADITIONAL ADMITTED CARRIER 2. NON-ADMITTED CARRIER 3. CA FAIR PLAN WITH SUPPLEMENTAL WRAP AROUND/DIC POLICY

### HOMEOWNER'S INSURANCE IS ADDRESS SPECIFIC

Most insurance companies determine if they will insure your home based on a wildfire risk assessment of your specific address. There are two main components of a wildfire risk assessment - a fire risk score (a combination of data such as, slope, brush, history of fire, etc) and the protection class. Protection class takes into consideration how far you are from a fire station and/or fire hydrant. Insurance companies use this data to independently decide if your address is a risk they are willing to take.

Many local insurance agents and brokers are writing new policies! If they are unable to offer you a traditional homeowner's policy due to your wildfire risk assessment, many can help you find alternative options. That may include finding you another insurance carrier, admitted or non-admitted, or writing you a California Fair Plan policy with a supplemental or wrap around/DIC policy.

The cost of your policy also has several variables. As a wise consumer, we encourage you to get at least three homeowner's insurance quotes before deciding what policy will best suit your individual needs.

If you have California FAIR Plan policy written for your home, make sure your agent is **EXPERIENCED** in writing these type of policies.

Insurance is described as a "moving target." Availability can change day to day. Always meet with your insurance agent at least annually to review availability options and update coverages on your policy.

#### Did You Know?

NEW homes can have LOWER insurance premiums. The materials you use to build can help lower your cost. Check with your insurance company for specific tips & suggestions!
